DETAILED ACTION

This office action is in response to the application filed October 24, 2003. Claims 1-36 are pending.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-18, drawn to a system/apparatus for adjusting polarization dependent loss, classified in class 385, subclass 11.
 - II. Claims 19-36, drawn to a method adjusting polarization dependent loss by incurring a maximum insertion loss, then adjusting a polarization state of an optical device to incur a minimum insertion loss for the light signal, classified in class 359, subclass 494.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed can be practiced by another materially different apparatus, such as an apparatus including a plurality of birefringent materials in which control is afforded by using computer monitoring that is external to the system (photodetectors, etc.).

Art Unit: 2874

3. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
